### 3D head model Kid 7-8 years from Dined

#### Head dimensions:

- Head height: 208mm
  - Head Depth: 190mm
  - Head breadth: 154mm
  - Nose width: 31mm
  - Nose bridge length: 31mm
- P90

#### Description:

- Adjustable each nose. Four different nose bridge adjustment options.
- Extremely enveloping design. Completely surrounds the eye area, with a wider field of vision and maximum protection.
- Protection against adverse weather conditions.
- Ultralight and flexible material that provides maximum comfort
- Comfortable and secure fit. Stable fixation and maximum comfort thanks to the non-slip areas of the temple.
- Protective against sweat. The foam protector prevents sweat from falling into the eyes.
- Ventilation system. The dynamic ventilation system directs air through the lenses and prevents fogging.
- The temples adjust in three positions to provide a better fit, minimize the incidence of wind and reflection of the sun.
- Lenses resistant to strong impacts. The polycarbonate lenses are coated in several layers, thus offering the best protection and greater resistance to impacts.
